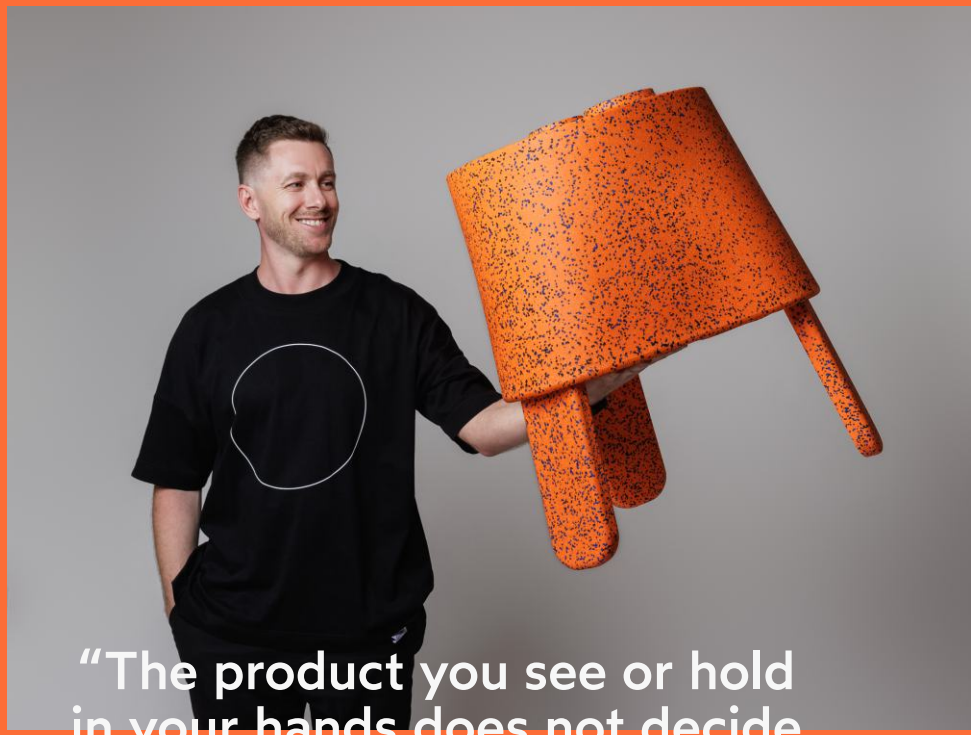
AYTO: 1st multifunctional and fully sustainable furniture of its kind

PRODUCT STORY

moi



"The product you see or hold in your hands does not decide for you. It doesn't dictate how it will serve you. AYTO willingly leaves that privilege to you. Decide for yourself in what form it will become your companion."

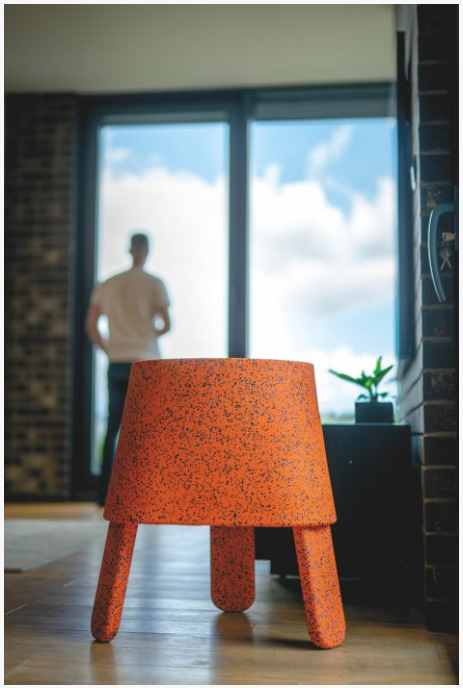
moiproduct.com

Original design table, flower pot, cooling box and storage space in one.

Or more?
It's up to you.

Use it one way today and another tomorrow

We designed AYTO with your lifestyle in mind Moving furniture around your space or adapting its use to your needs has never been easier.



Original piece of furniture

Imagine walking into a room and having your eyes drawn to a statement piece that not only catches attention but also adds a distinctive character to your surroundings. Your space deserves to stand out.

Design flower pot

A unique fusion of functionality and aesthetics adds a touch of nature to your space, creating a harmonious balance between modern design and the beauty of blooming flowers and plants.

Spacious toy box

Its rounded shapes and lightweight construction is safe for your kids and for you, as well.

Raised garden bed

AYTO can serve as a raised bed for cultivating useful plants, vegetables, or herbs, both in home gardens and public spaces like community gardens.

Practical cooler box

What makes AYTO unique are also its innovative thermal insulation properties, making it an excellent bottle cooler box for your favourite beverages. In milder weather, it is not even necessary to use ice.

Illustrated by Chiara Helység

Created from a unique sustainable material –

EPP

Over 80 % of furniture ends up in a landfill or is burned, while only a small percentage is recycled. Our vision is simple – we decided to change the way we understand furniture.

AYTO is created from a unique, sustainable material – expanded polypropylene (EPP) – that is not a burden on the environment. It is produced without pollutants and contributes towards reducing CO_2 emissions in the long term.

We are proud to have developed a 100 % sustainable product that leaves no waste behind. With the possibility of endless recycling of AYTO, we push the boundaries of traditional furniture making.

Premium benefits & features

100 % SUSTAINABLE MATERIAL

You not only get a stunning piece of furniture but also contribute to a sustainable future.

UNIQUE DESIGN

An aesthetic appeal is combined with functionality, making it a conversation starter and a visual delight.

MULTIFUNCTIONAL USE

AYTO is not limited to a single purpose. Choose for yourself how you use it.

THERMAL INSULATION PROPERTIES

Imagine a magical pot that keeps your drinks cool and refreshing.

ENDLESS RECYCLING

You're not just buying furniture – you're investing in a greener future.

FAIRTRADE ECOLOGICAL PRODUCTION

Feel good about your furniture, knowing its manufacturer supports fairtrade ethical practices.

LOW WEIGHT AND EASY HANDLING

AYTO weighs only 3 430 g (7.56 lbs), so it effortlessly adapts to your changing needs.

HIGH STABILITY

Your furniture not only looks great but is also sturdy, safe and suitable for everyday use.

EASY MAINTENANCE

Spend less time worrying about upkeep and more time enjoying your furniture.
